

Beautiful

Perfect visual experience,
profound aesthetic concept

Finely decorated cage

Ultra-large cage space

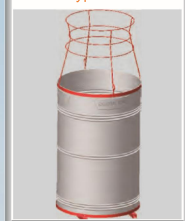

Intelligent Console

Exquisite Cabin

The new type of cable reel

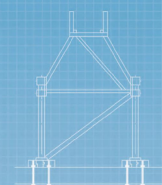

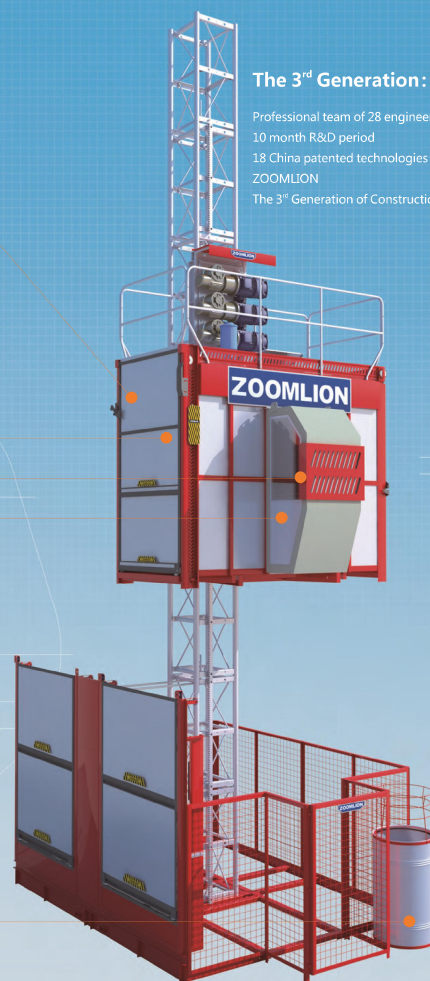

The 3rd Generation: "BWM" Series

Professional team of 28 engineers
10 month R&D period
18 China patented technologies integrated
ZOOMLION
The 3rd Generation of Construction Hoist: "BWM" Series

The product spectrum

No.	Model	Rated Load	Rated Speed	Motor Power	Max. Lifting Height
1	SC100/100	2×1000Kg	36m/min	2×2×11Kw	450m
2	SC200/200	2×2000Kg	36m/min	2×3×11Kw	450m
3	SC200/200BD	2×2000Kg	0-40m/min	2×3×11Kw	500m
4	SC200/200BZ	2×2000Kg	0-68m/min	2×3×18.5Kw	500m
5	SC200/200E	2×2000Kg	36m/min	2×2×13Kw	450m
6	SC200/200EB	2×2000Kg	0-40m/min	2×2×13Kw	500m
7	SC200/200EB-II	2×2000Kg	0-46m/min	2×2×15Kw	500m
8	SC30	300Kg	26.7m/min	7.5Kw	200m

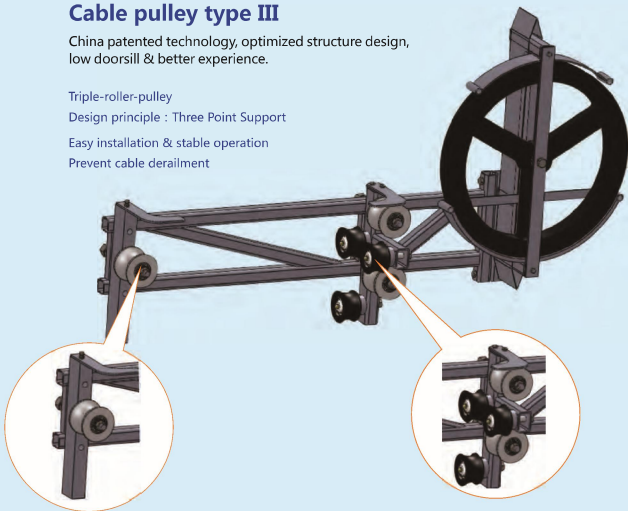

Worthy

Perfect tactile experience,
ultimate human care

Cable pulley type III

China patented technology, optimized structure design,
low doorsill & better experience.

Triple-roller-pulley
Design principle : Three Point Support
Easy installation & stable operation
Prevent cable derailment

Doorsill height is 0.68m, the lowest in the industry of China
The installation height of the counterpart construction
hoists is up to 1m.

1m

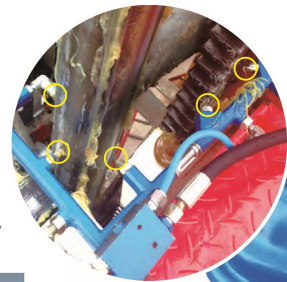

Worthy

Perfect tactile experience,
ultimate human care

Automatic refueling system

Generated from ergonomic design
BWM uses automatic refueling system
More safe and labor saving
Achieving multiple-point lubrication
Assure you of easy maintenance

Traditional lubrication system
is not only time and labor consuming,
but also with high risk and
complicated operation.

Manageable

Perfect intelligence experience,
unremitting pursuit of scientific spirit

Remote control

SMS command can achieve remote control via mobile terminal for easy management.

Turn on reminder	901CF13080001101 : the machine is on
Working status inquiry	901CF13080001101 : stop, cage roof, contactor normal, lower limit, side opening door open, ID is on, others normal.
Card switch request	901CF13080001101 : asking for card switch
Warning reminder	901CF13080001101 : contactor failure, over load.
Machine on/off	0901CF13080001101 : Lock down is on
Customer setting	adding group A user : 1507486XXXX

Advanced manufacture technology

① Electrophoresis Coating Line

Mast tie and mast section (optional), external enclosure have been applied with electrophoresis technology, which can prevent rusting and corrosion of pipe inner wall and thin panel, to extend the service life.

② Robot welding line of mast section

Advanced robot welding line

③ Driving device assembling line

Driving device assembling line increases the production efficiency, improves the product precision, while decrease the labor intensity.

④ Commissioning platform

Each unit of hoist has to be strictly tested before delivery to ensure optimal working performance.
